Inspector Signature \_\_\_\_\_

Customer signature \_\_\_\_\_

This inspection document must be completed in full and sent by email to [info@europeanmotorhomes.co.nz](mailto:info@europeanmotorhomes.co.nz) failure to do so will void the warranty. Please include photos of the roof and any areas requiring rectification

## Inspection Notes for Customer

### General Maintenance requirements to keep your warranty valid

The exterior of the Motorhome and in particular the roof should be cleaned regularly - we recommend monthly. Failure to clean the sealant joints properly will result in premature failure and aging of the sealant. Because the roof is often out of sight this is an area that is sometimes overlooked when cleaning and maintaining the Motorhome

In order to protect your investment your Motorhome engine / chassis must be serviced in accordance with the manufacturers recommendation - as well as physical maintenance regular servicing with your Ford or Fiat dealer includes any software updates. Currently service intervals for Ford and for Fiat is every 12 months from the date of registration.
